

VIZIQ Universe - Character Bible (v1)

© 2026 VIZIQ Ltd. All Rights Reserved.

The Adventures of Captain Value™. A comic-style educational universe used to explain AI adoption, governance, data quality, ownership, architecture, ROI and business transformation.

Captain Value (Hero)

Mission/Purpose: Cuts through hype and focuses on business outcomes.

Catchphrase: Where's the business case? | Show me the value.

Weapon/Superpower: ROI Shield

Represents: Business value, ownership, measurable outcomes

Data Guardian (Hero)

Mission/Purpose: Protector of trusted data.

Catchphrase: AI doesn't fix bad data.

Weapon/Superpower: Data Lens

Represents: Data quality, stewardship, governance

Captain Governance (Hero)

Mission/Purpose: Ensures accountability and clear ownership.

Catchphrase: Who signed this off?

Weapon/Superpower: Accountability Hammer

Represents: Governance, controls, responsibility

Product Commander (Hero)

Mission/Purpose: Owns delivery and benefits realisation.

Catchphrase: Features mean nothing if nobody uses them.

Weapon/Superpower: Benefits Tracker

Represents: Adoption, ROI, outcomes

AI Hub (Hero)

Mission/Purpose: Routes work to the right AI model.

Catchphrase: Models come and go. Capabilities remain.

Weapon/Superpower: AI Routing Engine

Represents: Flexibility, orchestration, future-proofing

The AI Hype Monster (Villain)

Mission/Purpose: Creates urgency without a business case.

Catchphrase: Everyone else is doing it!

Weapon/Superpower: Fear & Hype

Represents: Weakness: business case and leadership

Hard-Wired Harry (Villain)

Mission/Purpose: Directly connects apps to a single AI model.

Catchphrase: We'll never need another model!

Weapon/Superpower: Vendor Dependency

Represents: Weakness: AI Hub architecture

The Data Swamp (Villain)

Mission/Purpose: Feeds on poor-quality data.

Catchphrase: Nobody owns me!

Weapon/Superpower: Confusion & Duplicates

Represents: Weakness: data ownership

The Token Vampire (Villain)

Mission/Purpose: Consumes AI budgets.

Catchphrase: Just one more prompt...

Weapon/Superpower: Runaway Costs

Represents: Weakness: token governance

Dashboard Dave (Villain)

Mission/Purpose: Creates pretty dashboards with no value.

Catchphrase: Look how pretty it is!

Weapon/Superpower: Distraction

Represents: Weakness: 'What decision does this support?'

Captain Feature (Villain)

Mission/Purpose: Delivers features but not outcomes.

Catchphrase: But all the requirements were delivered!

Weapon/Superpower: Feature Bloat

Represents: Weakness: benefits tracking

The Ownership Ghost (Villain)

Mission/Purpose: Nobody owns anything.

Catchphrase: Not my responsibility.

Weapon/Superpower: Confusion

Represents: Weakness: clear accountability

Scope Creep (Villain)

Mission/Purpose: Turns small projects into monsters.

Catchphrase: Just one more thing...

Weapon/Superpower: Infinite Expansion

Represents: Weakness: prioritisation

The Silent KPI Killer (Villain)

Mission/Purpose: Avoids measurement.

Catchphrase: We don't need KPIs.

Weapon/Superpower: Lack of Accountability

Represents: Weakness: meaningful metrics

Vendor Lock-In Larry (Villain)

Mission/Purpose: Locks organisations into expensive choices.

Catchphrase: You're ours now!

Weapon/Superpower: Dependency

Represents: Weakness: standards and AI Hub design

VIZIQ Core Philosophy

Technology is an enabler. Value is the objective. Focus on business outcomes, trusted data, ownership, governance, architecture and measurable ROI.
